

about

leadership

Develop leadership skills through educational workshops, direct contact with industry leaders and participation in ABC working committees.

impact

Build valuable and effective relationships among peers across all industries with a stake in the economic development of greater Boston.

knowledge

Broaden understanding of the economic impact of city planning through speaker-based events and regular newsletter updates.

today's young professionals,
tomorrow's experienced leaders

Your membership with ABC includes valuable opportunities for rising leaders at your organization through our Young Leaders committee, a group of younger professionals (age 25-35) nominated by the Board and Associate membership from ABC member organizations. These Young Leaders foster ABC's growth with an infusion of energy and innovative ideas. Committee activities are geared toward supplementing and supporting the activities of ABC's Board. Each Young Leader also has the chance to participate in ABC working committees.

The Young Leaders committee provides a unique combination of leadership training, relationship building and educational opportunities, all designed to enhance our Young Leaders' capacity to promote greater Boston as a globally competitive economic center. Committee participants may choose to attend speaker-oriented events drawing top names in city planning; attend social events that encourage effective relationships among peers; and participate in skill building workshops to promote effective leadership.

TO NOMINATE A RISING LEADER FROM YOUR ORGANIZATION TO PARTICIPATE IN ABC'S YOUNG LEADERS PROGRAM, PLEASE CONTACT RICHARD PARR AT RPARR@ABETTERCITY.ORG OR 617.502.6244.
