Save time, money and energy while giving your computer superior surge protection. It's as easy as 1-2-3. Never turn your computer peripherals on or off again! The Smart Strip Power Strip pays for itself in as little as six weeks! Available with or without Fax/Modem or Coaxial Cable Protection. Considering using with the Power Strip Saver (/Shop/Hardware_Cable/Item/PS2), which allows you to plug in many bulky transformers without blocking other outlets on your surge protector.
